

## Engineering Capabilities

- ◆ Complete design and prototyping for machines, parts, and metal fabrication
- ◆ Quick turnaround from concept to completion
- ◆ Hands on engineers who are involved in every stage of the process, from design to testing of the finished product
- ◆ Computer design software:
  - ☆ Pro-E (Parametric Solid Modeling)
  - ☆ AutoCad (Solid Modeling)
  - ☆ Surfcam

## Tool And Die Capabilities

- ◆ Design, construction, and testing of: stamping, forming, blanking, drawing, and extrusion dies
- ◆ Design and prototype parts for manufacturing
- ◆ Production machine repair parts

## Specialized Testing

- ◆ Complete design and construction of testing equipment, and testing parameters
- ◆ Endurance testing of mechanical, and electronic components
- ◆ PLC technology (Programmable Logic Control) to fully automate our testing procedures and machines
