

Steffes heating systems can save you money because the heat stored is purchased at a lower cost. These reduced rates provide substantial savings on your energy bill and much more.

- Comfortable, affordable, and efficient
- Stable, predictable heating bills
- Quiet, clean and reliable operation
- Eliminate the need for combustible fuels in your home
- Environmentally friendly, no tanks or spills

**Start saving money NOW on your home heating costs with a Steffes heating system.**

### ROOM UNIT

The Room Unit (2100 Series) is ideal for any room in your home. It can be used as a supplement to another heating system or a direct replacement of electric baseboards or wood stoves.

### COMFORT PLUS FORCED AIR FURNACE

The Comfort Plus Forced Air Furnace (4100 Series) can heat your entire home through a central duct system. The system can be interfaced with a heat pump for even greater efficiency.

### COMFORT PLUS HYDRONIC FURNACE

The Comfort Plus Hydronic Furnace (5100 Series) will heat your entire home through in-floor, hydronic baseboard and/or forced air. The furnace can be equipped with a heat pump system for even greater efficiency.

# STEFFES + TOD RATES

**Get Comfortable with Low Cost Electricity!**

Steffes specializes in Electric Thermal Storage (ETS) heating systems that store heat during off-peak hours when electricity costs are the lowest, and then release the stored heat when it is required throughout the day. ETS automatically delivers savings by storing heat at night, taking advantage of the cheaper time-of-day (TOD) power rates.

Nova Scotia Power's TOD rates work by billing for the actual cost of making and delivering power at different times, meaning power is cheapest overnight and on weekends and holidays when overall demand on the electricity system is lower. Power is also more expensive during winter days, when demand is the highest.

In order to qualify for the TOD rate you must have an ETS heating system to store heat with appropriate timing and controls in place and approved by Nova Scotia Power. A Steffes ETS system can help you save money while keeping your home cozy and comfortable around the clock.

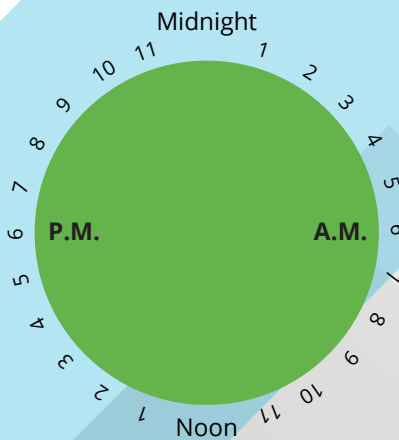

## Learn what Nova Scotia Residents are saying about Steffes Heaters:

*"I have had mine for 10+ years. Love them! They save me around 30% on my bill for heating. After 5 years they paid for themselves." - Greg*

*"Love my Steffes. Our electric bill dropped dramatically!!!" - Phyllis*

## Nova Scotia's Time of Day Rate Energy Charges

### Weekends & Holidays

Year Round (116 days)

### Weekdays

March - November (182 days)

### Weekdays

December - February (67 days)

**¢** Off-peak rate - 8.676¢/kWh

**¢¢** Standard rate - 15.603¢/kWh

**¢¢¢** On-peak rate - 19.961¢/kWh

Time-of-day base charge: \$18.82/month. Cost is measured in ¢/kWh. All costs are based on rates of January 1, 2019. For up-to-date rate information please visit Nova Scotia Power's website at [www.nspower.ca](http://www.nspower.ca).
