Steffes Expands in Permian with New Midland Office

MIDLAND, Texas – Steffes is proud to announce the opening of a new office in Midland, Texas. This new location provides the company with a larger inventory yard, office space for the local sales and service team, and adequate square footage for future manufacturing capabilities.

“This expansion represents our continued commitment to sales, service and support of Steffes products in the Permian Basin,” said Todd Mayer, Steffes Co-President. “While we have had a sales and service team in the Permian Basin for several years now, we are excited to now have a facility of our own.”

Steffes is fully operational in Midland, TX with local personnel providing service and support for our extensive line of oil and gas production equipment.

The address of our new office and inventory yard is 2908 E County Road 117 Midland, Texas 79706. The team at Steffes is thrilled to continue our involvement in the Midland community. We look forward to welcoming you to our office when we can all meet safely in person again.
