

Efficiency Nova Scotia Rebates for Steffes ETS Products

Efficiency Nova Scotia is now offering financial incentives to customers to replace their existing central heating system. These incentives are available province-wide in Nova Scotia!

Our energy efficient products are included in this offer to help consumers remove financial barriers and save money upfront and over time. You could be eligible to receive a rebate incentive up to **\$2,000!**

Start saving money NOW on your home heating costs with a Steffes heating system.

ROOM UNIT

The Room Unit (2100 Series) is ideal for any room in your home. It can be used as a supplement to another heating system or a direct replacement of electric baseboards or wood stoves.

FORCED AIR FURNACES

The Comfort Plus (4100 Series) and Serenity (4200 Series) Forced Air Furnaces can heat your entire home through a central duct system. The system can be interfaced with a heat pump for even greater efficiency.

HYDRONIC FURNACE

The Comfort Plus (5100 Series) Hydronic Furnace will heat your entire home through in-floor, hydronic baseboard and/or forced air. The furnace can also be equipped with a heat pump system for even greater efficiency.

STEFFES + TOD RATES

Get Comfortable with Low Cost Electricity!

Steffes specializes in Electric Thermal Storage (ETS) heating systems that store heat during off-peak hours when electricity costs are the lowest, and then release the stored heat when it is required throughout the day. ETS automatically delivers savings by storing heat at night, taking advantage of the cheaper time-of-day (TOD) power rates.

Nova Scotia Power's TOD rates work by billing for the actual cost of making and delivering power at different times, meaning power is cheapest overnight and on weekends and holidays when overall demand on the electricity system is lower. Power is also more expensive during winter days, when demand is the highest.

In order to qualify for the TOD rate you must have an ETS heating system installed to store heat, with appropriate timing and controls in place, approved by Nova Scotia Power. A Steffes ETS system can help you save money while keeping your home cozy and comfortable around the clock.

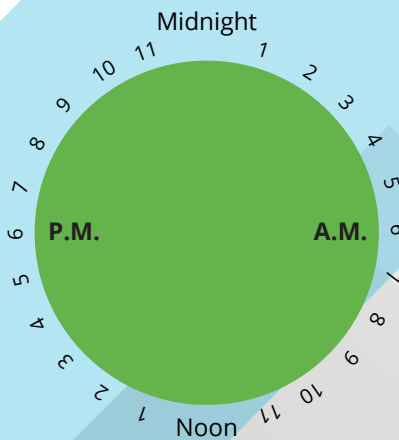

Learn what Nova Scotia Residents are saying about Steffes Heaters:

"I have had mine for 10+ years. Love them! They save me around 30% on my bill for heating. After 5 years they paid for themselves." - Greg

"Love my Steffes. Our electric bill dropped dramatically!!!" - Phyllis
